

K-LOVE is a vital part of this community. Many people here listen to it and consider more vital than any other station that exist in the Memphis broadcasting area. I have listened to it since I was in the Navy in 1997 to now and would be greatly disappointed if you took it off the air for this Low Power FM service. You would do this nation a great disservice in removing K-LOVE from the airwaves. It is one of the longest running Christian stations I know of and the only one in Memphis. Other Christian stations have attempted to be self sustaining via advertising and commercials but they were unable to to last for any length of time. K-LOVE is the only one I know that has been around and thrived beyond its home state of California. Please support publicly funded station by keeping K-LOVE on the airwaves. K-LOVE is one of the few clean family-oriented stations left that has changed lives 24/7 for the better unlike many of the filth that exists own on the paid advertising stations.
